

## DO YOU WASH BETWEEN YOUR TOES?

Do you wash between your toes I ask, curious this I am?  
Did your Mother force this task on you, a curse me thank you ma'am!

A child at five a boy in dirt, separate two toes and look,  
Oh my step back the subject filth, on this I could write a book!

Some mothers did not check the toes, these kids I say are blessed,  
For years I washed between my toes, many times I have confessed!

Eight spaces there are between ten toes, this happens once a day!  
Seventy years, three sixty five days, twenty thousand times let's say!

Twenty thousand, times eight spaces, one sixty thousand for sure!  
One second per crack, two thousand minutes, please do listen sir!

Forty four hours in your life, just cleaning your toes,  
At first I thought a waste of time, but listen now, here goes!

I forgive you mom, this curse on me, I love my toes are clean,  
Only four days in my life, others have missed, it does seem!

Many are us, this addiction we have, between our toes are slots,  
Meticulous we are, laughing out loud, we do connect the dots!

If this curse you have, continue on, just clean your toes each day,  
And if you do, refuse this task, don't smell your toes, let's pray!!
